

## EQUIPMENT

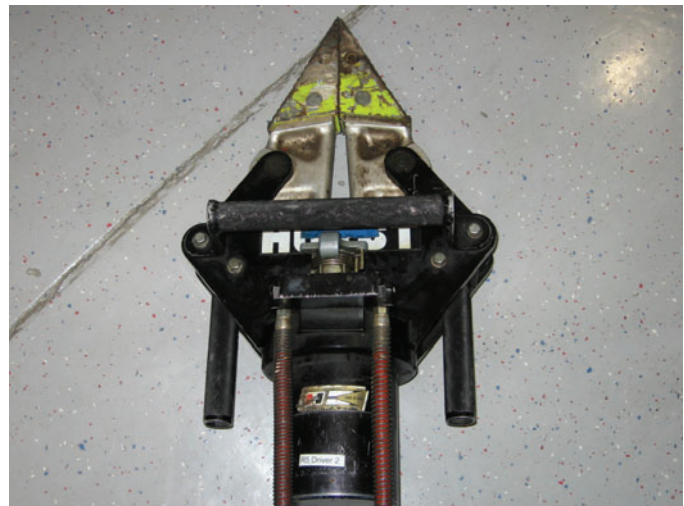

*(Picture Coming Soon)*

**Turnouts**-Turnouts include helmet, coat, gloves, pants, and boots. It costs approximately \$1,200.00 to equip a firefighter with a new set of turnouts.

**SCBA**-SCBA stands for Self Contained Breathing Apparatus. In a fire, the SCBA has an alarm that alerts the firefighter when his air is getting low and it also has alarm called a PASS that monitors if the firefighter stops moving. Through a grant from FEMA, we replaced all of our SCBA's in 2003. We use Scott brand SCBA's.

**Jaws of Life**- Also known as a Hurst tool. HFD has 2 cutter/spreaders, one on Engine 3 and one on Rescue 5. This gives us the ability to do two extrications at one time without having to call for mutual aid or having to have a patient wait while we extricate another patient.

**Radios**-We use Kenwood brand portable and mobile radios. Each firefighter and officer has their own portable radio.
